

PROTUM® series

Small, light cable carriers
for modern offices

P0240 GS

Trademarks are legally protected for the TSUBAKI KABELSCHLEPP GmbH
as a national or international registration in the following countries:
tsubaki-kabelschlepp.com/trademarks

Subject to change without notice.

- 1 Variable fastening for table top, table frame, table foot and floor
- 2 Very long service life - no links and therefore no link wear
- 3 Different side parts / inner heights available
- 4 "Clip" side parts for attaching add-on parts
- 5 Cables are simply pressed in
- 6 Variable Befestigung (Tischplatte, Tischgestell, Tischfuß und Boden)

Features

- » Solid plastic cable carrier
- » Cost savings through easy cable installation
- » Installation of pre-assembled cables also possible
- » Belt with clip-on side parts
- » Easy adaptation of the chain length
- » Low weight, good ratio between inner and outer width
- » Combination options for end connectors

Available in the standard color variants black, white, and silver gray

Cables are simply pressed in

The basic structure: belt with clip-on side parts

Combination options for end connectors

Depending on the design of your office furniture, different combination options are possible for the end connectors. They can be attached underneath table tops/cable conduits, to round or square table legs or to the floor.

Combination options for tables without height adjustment

Calculating the cable carrier length

Cable carrier length L_k

$$L_k = Hz - 31$$

[rounded up to n × 8]

$$n_k = (L_k - 104) / 40$$

[rounded up]

$$l_2 = L_k - (n_k - 1) \times 40 - 72$$

Combination options for tables with height adjustment (only one-sided variant)

Calculating the cable carrier length

Cable carrier length L_k

$$L_k = n_k \times 40 + 56$$

$$n_k = (Hz + 40) / 40$$

[rounded up]

End connectors

Page 286
